In a sweeping work of reportage set over the course of 2016, New York Times bestselling author Ben Fountain recounts a surreal year of politics and an exploration of the third American existential crisis

Twice before in its history, the United States has been faced with a crisis so severe it was forced to reinvent itself in order to survive: first, the struggle over slavery, culminating in the Civil War, and the second, the Great Depression, which led to President Roosevelt's New Deal and the establishment of America as a social-democratic state. In a sequence of essays that excavate the past while laying bare the political upheaval of 2016, Ben Fountain argues that the United States may be facing a third existential crisis, one that will require a "burning" of the old order as America attempts to remake itself.

Beautiful Country Burn Again narrates a shocking year in American politics, moving from the early days of the Iowa Caucus to the crystalizing moments of the Democratic and Republican national conventions, and culminating in the aftershocks of the weeks following election night. Along the way, Fountain probes deeply into history, illuminating the forces and watershed moments of the past that mirror and precipitated the present, from the hollowed-out notion of the American Dream, to Richard Nixon's southern strategy, to our weaponized new conception of American exceptionalism, to the cult of celebrity that gave rise to Donald Trump. In an urgent and deeply incisive voice, Ben Fountain has fused history and the present day to paint a startling portrait of the state of our nation. Beautiful Country Burn Again is a searing indictment of how we came to this point, and where we may be headed.

Beautiful Country Burn Again by by Ben Fountain: Summary ... In Beautiful Country Burn Again, author Ben Fountain posits that the United States reinvents itself to survive times of extreme crisis. He believes that these severe times of change happen approximately every 80 years, making the Civil War the first great reinvention, followed by the Great Depression and the New Deal in the 1930s, and landing for now, finally, at our shocking 2016 election.
